The screenshot shows the MySQL Workbench interface with a query editor and a results grid.

Query Editor (Query 1):

```

6 BEGIN
7     DECLARE income_level VARCHAR(20);
8
9     SET income_level = (
10         CASE
11             WHEN monthly_value <= 4000 THEN 'Low Income'
12             WHEN monthly_value <= 5000 THEN 'Avg Income'
13             ELSE 'High Income'
14         END
15     );
16
17     RETURN income_level;
18 END //
19
20 DELIMITER ;
21 select income_level(3500);
  
```

Result Grid:

income_level(3500)
Low Income

Object Info: No object selected

Action Output:

The screenshot shows a MySQL Workbench interface. On the left, there's a sidebar with sections for MANAGEMENT (Server Status, Client Connections, Users and Privileges, Status and System Variables, Data Export, Data Import/Restore), INSTANCE (Startup / Shutdown, Server Logs, Options File), and PERFORMANCE (Dashboard, Performance Reports, Performance Schema Setup). The main area has tabs for Administration and Schemas, with 'Query 1' selected. The query editor contains a stored procedure definition:

```
6 BEGIN
7     DECLARE income_level VARCHAR(20);
8
9     SET income_level = (
10         CASE
11             WHEN monthly_value <= 4000 THEN 'Low Income'
12             WHEN monthly_value <= 5000 THEN 'Avg Income'
13             ELSE 'High Income'
14         END
15     );
16
17     RETURN income_level;
18 END //
19
20 DELIMITER ;
21 select income_level(3500);
```

The status bar at the bottom left shows "100%" and "22:21". Below the editor are buttons for Object Info, Session, Result Grid, Filter Rows, Search, and Export. The main panel displays the results of the executed query:

income_level(3500)
Low Income

The panel also includes tabs for Result 1 and Action Output, and a "Read Only" checkbox. The Action Output table shows:

Time	Action
11:43:36	select income_level(3500) LIMIT 0,1000

At the bottom, it says "1 row(s) returned" and "0.0014 sec / 0.000000...". A "Query Completed" message is at the very bottom left.
